

## ASG v2 Ex 5.1 (Dissonance)

• The only 3 unique notes are formed by strings A, B & C.

• The lengths of these are (in terms of)

(geometry)  $L_A = 1$

$$L_B = \sqrt{3}$$

$$L_C = 2$$

• So A & C form an octave, but both A & B and B & C will be dissonant.
